

AET HAZMAT TRAINING PROPS

Advanced Entertainment Technology

DOT CLASS MC-406 TANKER WITH REPLACEABLE DRILL PLATES

Description:

This prop is used for training in the use of stinger insertion in overturned tanker trucks. This prop meets California Title 19, Section 2560-a.1.H Field Training Facility requirements. Prop includes 50 removable aluminum plates, rolled to match the curve of the tanker, for drill training. Dome lid leaks allow for clamp mitigation. Full size trailer enables users to practice stabilization along with grounding and bonding.
