10 FUNCTION PIPING & VALVE ARRAY

PUMPER SUPPLIED DISTRIBUTION MANIFOLD

PIPING SYSTEM FIELD TRAINING EXERCISE

- Training simulation apparatus designed and manufactured specifically for emergency response agencies by a leader in the special effects industry.
- Simulations may be supplied using agency Pumpers and other available or dedicated equipment.
- Equipment may be skid mounted with fork lift pockets or lifting points for easy transportation and placement. Simulation rail cars are much lighter than actual cars, facilitating transportation and installation.
- Title 19 compliant Training Props available for fabrication:

Steel & Poly Drum Props
Chlorine Container Props
Overturned Tanker Prop

Fixed Bulk Storage Tank Prop
Rail Car Prop (photo below)
Storm Drain Prop

Piping System Prop
Pressure Vessel Props
Cargo Box Trailer Prop

Stock or custom training prop designs manufactured to client's specifications.
